

Secretary's report

Thanks.

Once again, many thanks to the committee for their support and good work over a difficult year. It is pleasing to note that the current committee have all agreed to stand again this year. I believe we may be looking forward to a reasonable flying year, but then again, you never know with this horrible virus attack.

I would especially like to thank President John for his support and calm leadership in a crisis. John has continued again with his great work on the web site. The site is often commented on by members and people from other clubs as being a well-prepared site.

A very big thank you to Peter Zambory for his great work in keeping the supply of name tags going. It has been a big help to me as one job I don't have to worry about. Thanks Peter.

Membership:

Stands at 72 up by 14 since last year. We have unfortunately, this year lost two active members in Wes Hoffman in April and Martin Hopper recently. They will be sadly missed.

All new members, and a few returning members have received their welcome letters that outline the Site details, web site and other information. These letters have been well received.

The opportunity to attend any one of the four flying venues has, I am sure been the main reason for our increase in membership with members able to attend the venue that suits them closest to home.

Section 30. Alteration.

The model rules Section 30 previously required that we included an agenda item in the AGM covering the association report to Consumer affairs department. However, the current version of the model rules has removed this requirement as they have realised the AGM should occur first and handle matters to be reported. Such as the election of Secretary approval of accounts etc. Therefore, I have removed this matter from our agenda.

I am still required to report of course and in fact have an email from them waiting to acted on. I will follow up after the meeting. The report covers confirmation of the Secretary details, account balances at FY end, number of members etc.

Thank you all for your support.

Hon Sec. AMSA – IAV Sig

Ian Jemmeson
